

ST. PAUL'S EPISCOPAL CHURCH

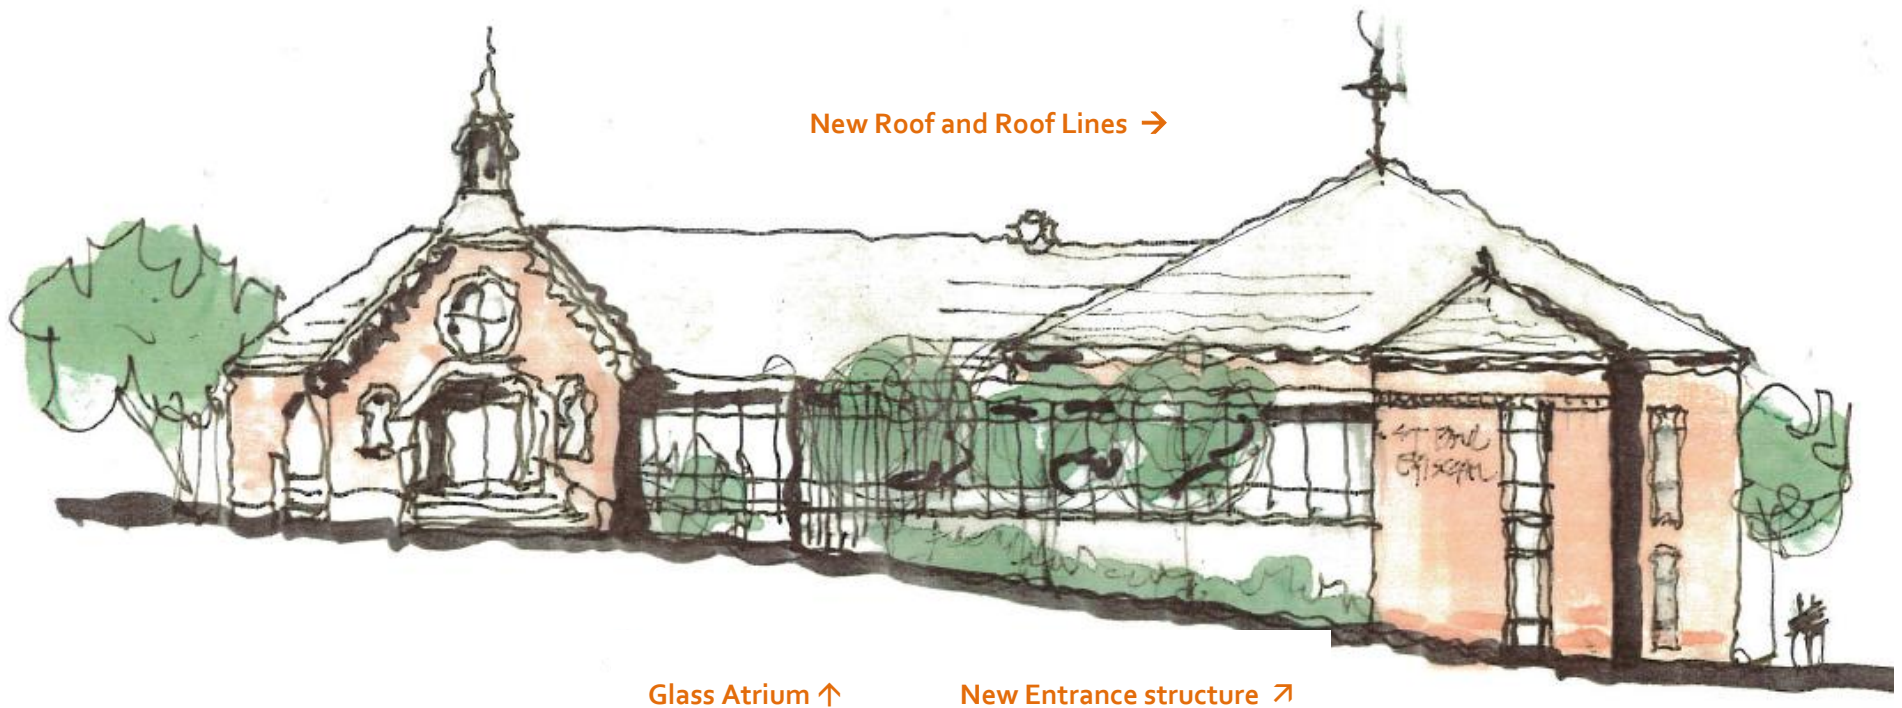

REVISED BUILDING PLAN

MARCH 2013

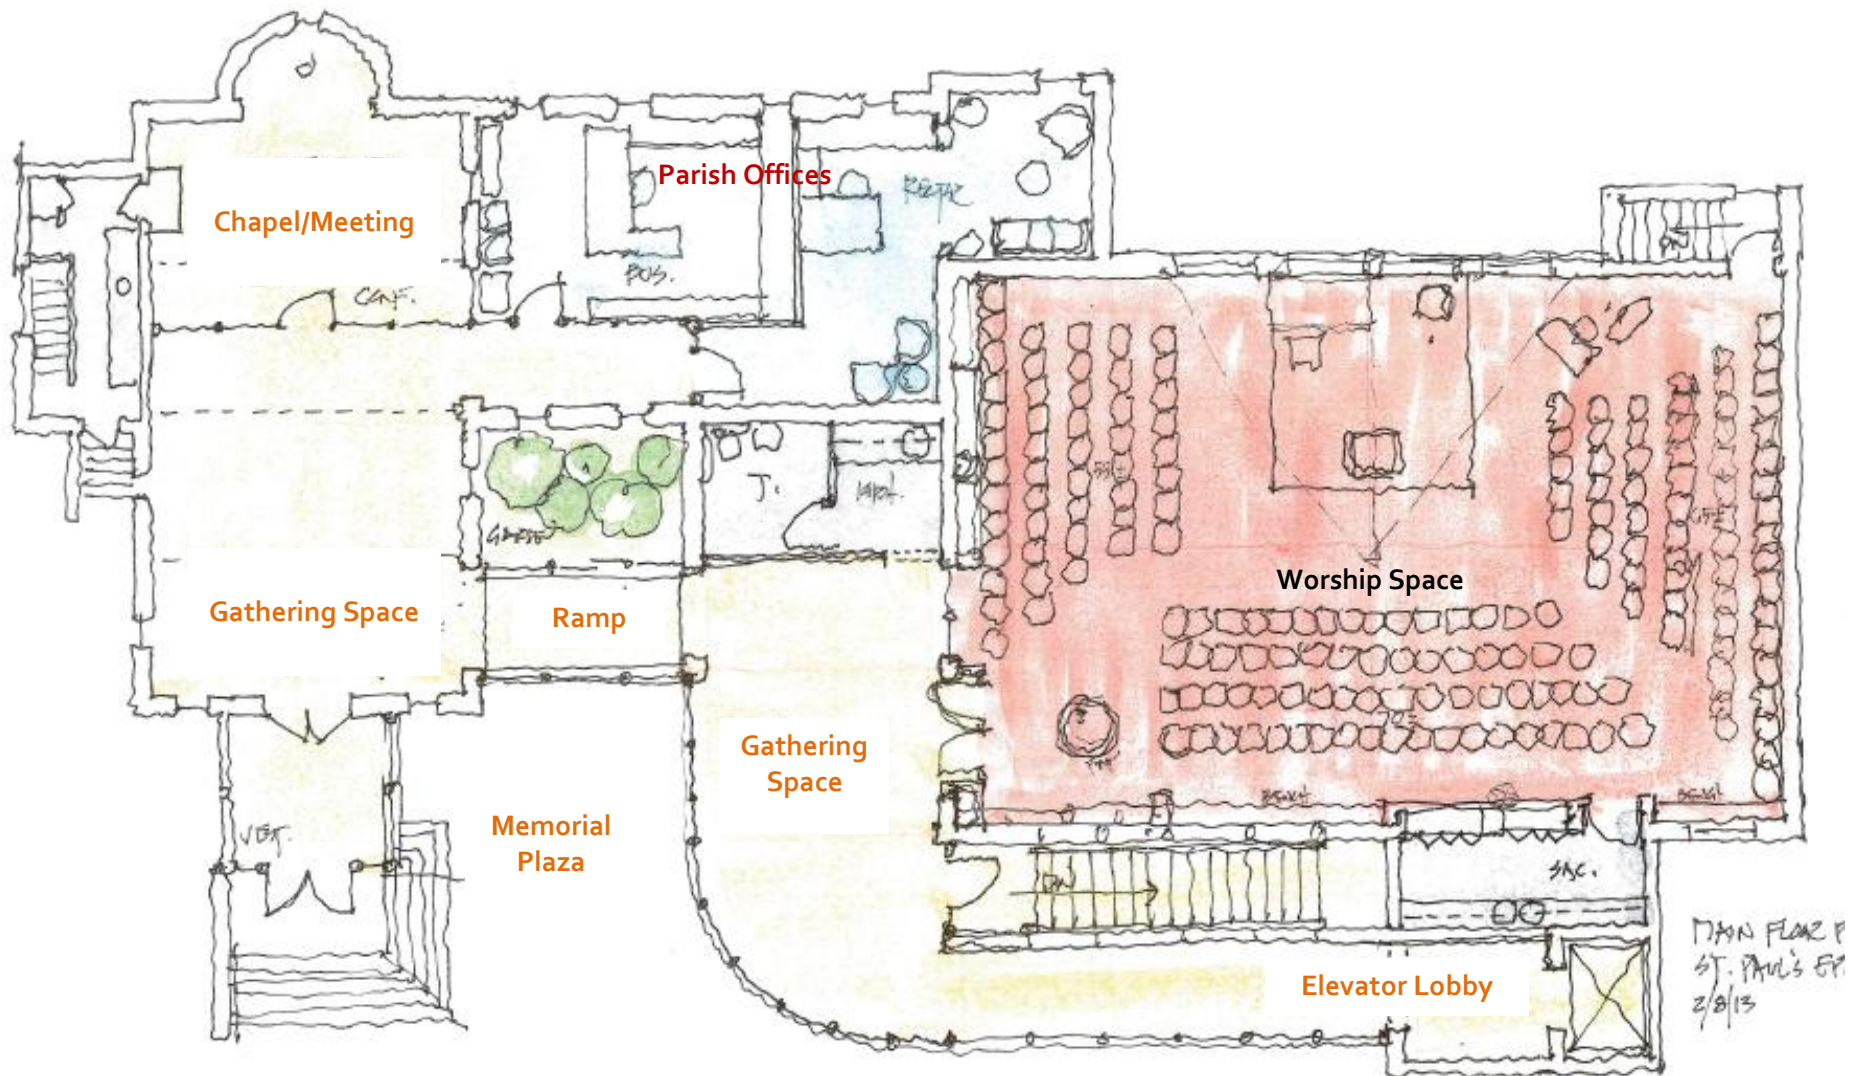

The Lasko Foundation has awarded St. Paul's a grant in the amount of \$300,00.00. This is exciting news for St. Paul's. Although we did not get the requested \$600,000.00 this is a significant award towards our ultimate goal. Paul and Jim our Architects and Christine our Liturgical Consultant with have been working diligently to achieve the **primary goals** as set out by the parish:

- A unified worship space
- Preservation of the original structure
- A gathering space
- Parish Offices
- Enlarged Parish Hall
- Classroom/Meeting space

We have set a total construction budget for our project at **\$1.5million**. To achieve the goals outlined by the parish we have re-visited the concept of a major renovation, demolition and partial expansion of the current building facilities. Below is the conceptual drawing of the renovated St. Paul's building.

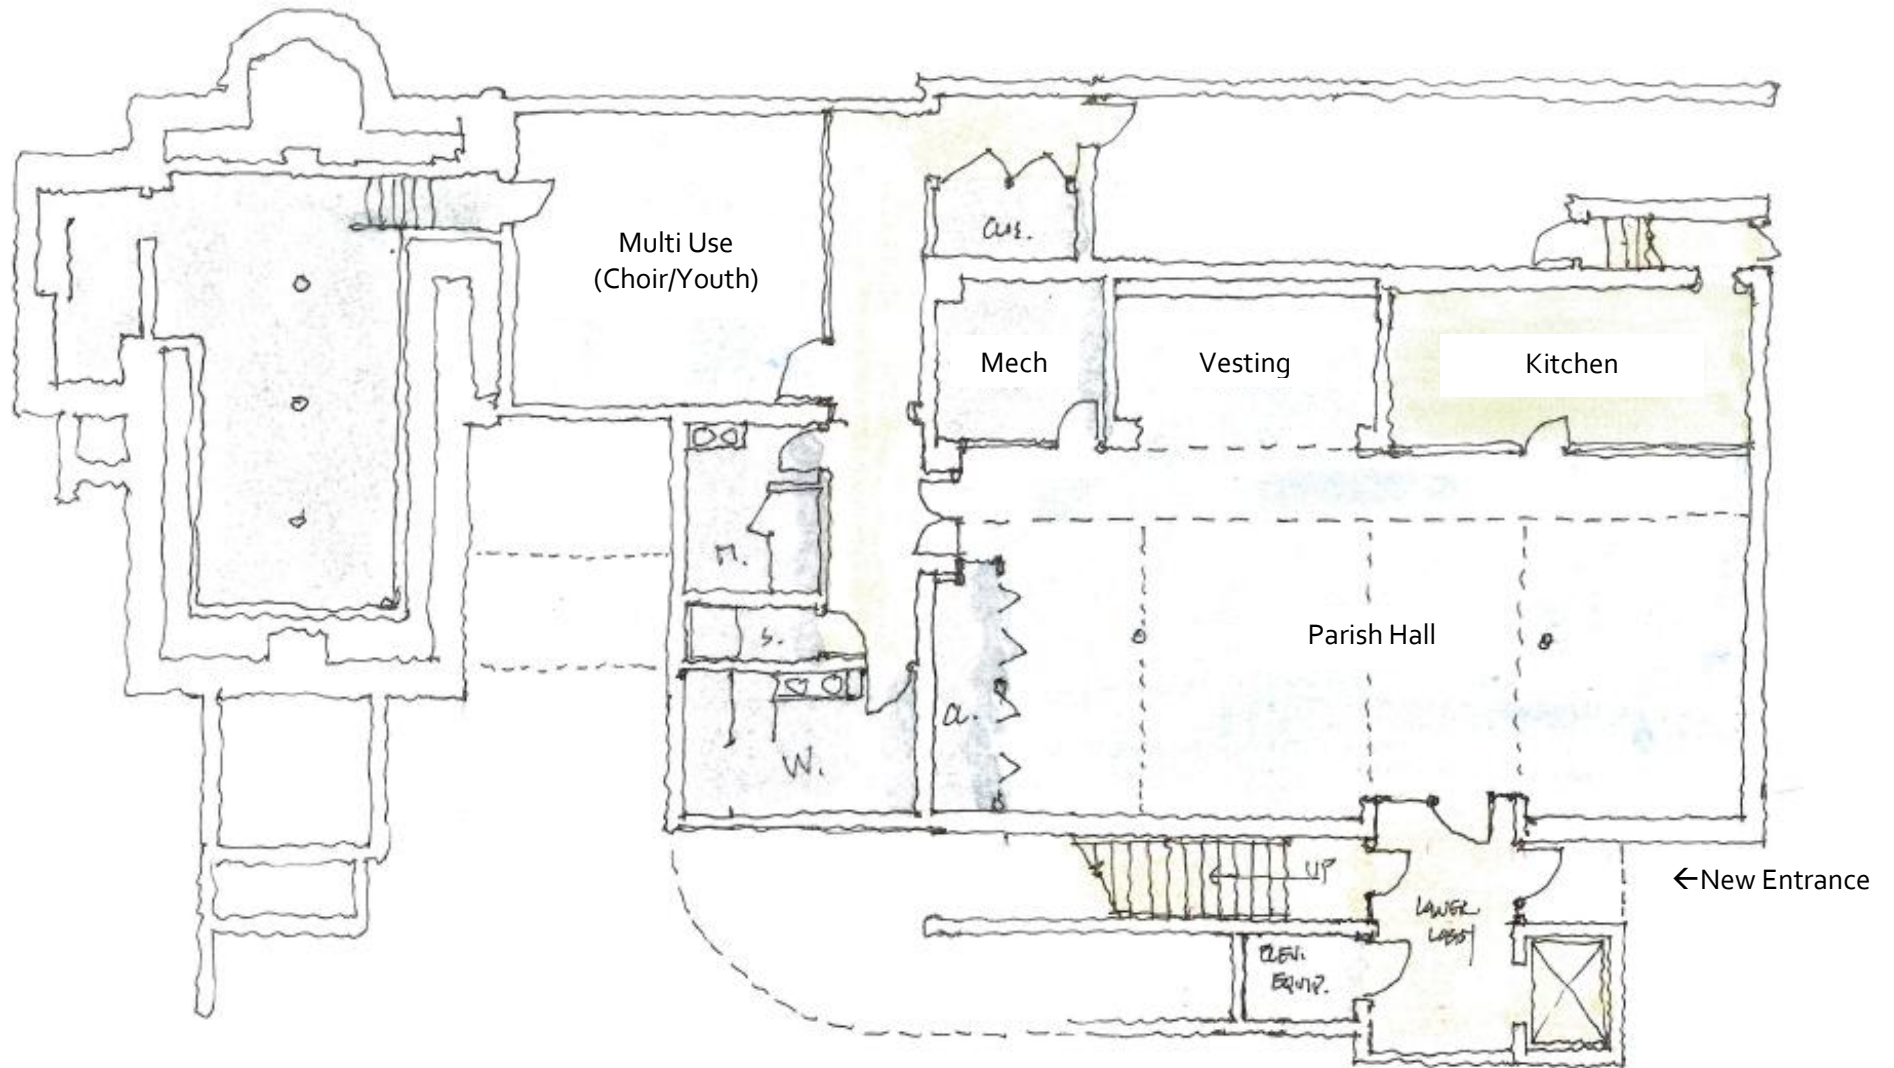

MAIN LEVEL

HIGHLIGHTS OF THE MAIN LEVEL

- Repurposed education wing as main worship space (seating for 230-240)
- A portion of the Garth is maintained
- New glass enclosed gathering space atrium that speaks of "welcome"
- New and expanded sacristy
- Original building is maintained
- Original sacristy repurposed as Kitchenette and storage
- Creation of a "Memorial Plaza"

GROUND FLOOR PLAN

HIGHLIGHTS OF GROUND LEVEL

- A new unified Entrance on St. Paul Street
- Expanded Parish Hall
- Repurposed Vesting Room (formerly the Alcove)
- Creation of a Multiuse Room (formerly the Noirot Room)
- Renovated Kitchen
